4 Cancelled Visits  
13 Past Visits

**NEW TASK** **NEW APPOINTMENT**

MedZed uses a tech platform to manage its mobile CareForce. We worked w/MedZed to connect their healthcare systems w/Heroku & automate patient data processing in Salesforce. Custom objects optimized backend to store patient data & ensure HIPAA compliance. Standard Sales Cloud workflows & approvals processes streamlined interaction between CareForce users & patients. Standard activity objects kept records of inbound/outbound calls/text messages.
